

PRODUCT INFORMATION

Tall walls and tight spaces don't mean sacrificing visual appeal for structural integrity. The Vertica Stone Cut[®] retaining wall system lends even the most massive projects the warmth and character of rough-hewn textures and earthen tones. And as always, with a 2-degree batter, the Vertica Stone Cut product rises to the challenge of creating walls of virtually any height while maximizing valuable land.

- The Vertica Stone Cut product provides a rich, tumbled look so each wall appears as an extension of nature
- Ideal for commercial development or anywhere space is at a premium
- Can be used to build gravity walls up to 3 feet 4 inches high, including buried course
- Pinless, patented locator lug technology gives quick, uniform setback for accurate installation and reduced labor costs
- Taller walls can be built using geosynthetic reinforcement or the AnchorplexTM retaining wall system when designed by a qualified engineer
- Minimum outside radius, measured on the top course to the back of the units: 5 feet, 3 inches
- Minimum inside radius, measured on the base course to the front of the units: 7 feet

Vertica Stone Cut[®]

RETAINING WALL SYSTEM

PRODUCT INFORMATION

Units	Stretcher	Cap	Corner
Approximate Dimensions*	8" x 18" x 12"	Front, 4" x 17 ¹ / ₄ " x 10 ³ / ₈ " Back, 4" x 12" x 10 ³ / ₈ "	8" x 18" x 9" 8" x 18" x 9"
Approximate Weight*	92 lbs.	41 lbs.	101 lbs.
Coverage	1.00 sq. ft.	1.22 lin. ft.	1.50 sq. ft.
Setback/System Batter	9/32"/2°
