Anchor Wall Systems Introduces the *Brisa*® Wall System

MINNEAPOLIS (June 1, 2011)—Adding to its groundbreaking line of products, Anchor Wall Systems launches the new *Brisa*® retaining and freestanding wall systems. Ideal for residential landscape projects, the products are inspired by the random look of split limestone.

“The *Brisa* product is the perfect choice to create an exceptionally beautiful, high-quality wall with a truly distinctive appearance,” says Nancy Johnson, Anchor Wall Systems channel marketing manager. “The look of the product complements a variety of homes and landscapes, and the multiple block sizes and rear-lip locators allow for design flexibility.”

Designed for homeowners who want an alternative to the look of a traditional retaining wall, the *Brisa* wall system is ideal for curves, terraces, steps, columns and raised patios. The freestanding wall units can be used to build seating walls and accents to add polish to any space.

Variegated colors extend the possibilities for personal expression while the product’s distinctive face style brings a touch of natural beauty to any landscape project.

For more information about the *Brisa* wall system and for a complete list of suppliers, please visit www.anchorwall.com

Brisa® Multiheight Retaining Wall System

Brisa Multiheight Freestanding Wall System

Anchor Wall Systems develops attractive, durable and easy-to-install retaining and freestanding wall systems. The company licenses its designs, which are backed by extensive testing and research, to more than 50 manufacturers in 21 countries who then market to contractors and homeowners through landscape supply dealers and big-box retailers. The end result is anything that can be imagined: innovative, lasting landscapes and environmentally sound walls that let consumers and contractors design—and build—something beautiful.
